

Paul Totah

Product Manager | B2B SaaS | Data, Analytics & Reporting Platforms

Bothell, WA | (617) 230-1137 | paultotah@gmail.com | linkedin.com/in/paultotah

PROFESSIONAL SUMMARY

Product Manager who spent a decade leading commercial and revenue teams at hotels before owning the analytics and forecasting products those teams depend on. Background spans direct product ownership of AI-assisted decision tools in enterprise SaaS and five years driving adoption across a Fortune 500 procurement portfolio at SAP. Approaches product work from the perspective of someone who has been the end user these platforms are built for.

CORE COMPETENCIES

Product Management: Product Strategy, Roadmaps, Customer Discovery, PRDs & User Stories, GTM, A/B Testing, OKRs & KPIs, Platform & Integration Design

Execution & Delivery: Backlog Prioritization, Agile/Scrum/Kanban, Stakeholder Alignment, Root Cause Analysis

Analytics & Domain: Product Analytics, Revenue Management, Dynamic Pricing, Forecasting, AI Workflow Automation

EXPERIENCE

Duetto, San Francisco, CA (Remote)

October 2024 - March 2026

Product Manager

Owned product strategy and development for reporting and forecasting applications within Duetto's revenue management platform, used by 6,300+ hotels worldwide.

- Built an AI-augmented PM workflow using Claude Code, Cursor, and MCP to automate defect triage, documentation, and issue investigation, reducing customer response cycles and freeing engineering capacity for roadmap work.
- Drove 7% year-over-year growth in report engagement through a series of improvements to UX, data surfacing, and how forecasting insights were presented across budgeting and pricing workflows.
- Built BETA release infrastructure for reporting features, including opt-in mechanics, activation tracking, and known behavior documentation, creating a repeatable process for GTM readiness scaled to feature complexity.
- Reduced analytics backlog 25% by auditing the full open ticket queue, separating duplicate issues, documentation gaps, and enhancement requests from actual bugs, giving engineering a focused defect list.
- Served as the QA gate during the new reporting UX release, reproducing issues and classifying defects before engineering intake, reducing the reporting backlog 15% and protecting engineering capacity for roadmap work.
- Improved internal and customer-facing documentation for forecasting models, reducing support ticket volume 10% and giving CS and Sales a clearer foundation for client conversations.
- Identified two net-new platform opportunities through customer workflow analysis: a reporting API enabling BI data export and a third-party integration introducing profit and cost metrics. Defined use cases, data flows, and integration requirements to inform roadmap investment.
- Led ongoing discovery with revenue leaders across global hotel chains, translating workflow patterns and adoption barriers into roadmap priorities that directly addressed the gap between forecasting outputs and user action.
- Evaluated pricing model performance with Data Science and Engineering, testing price elasticity assumptions and profitability inputs against real booking behavior to strengthen AI-assisted forecasting outputs used by revenue teams.

SAP, Bellevue, WA

January 2019 - May 2024

Strategic Customer Manager, SAP Ariba Product Success

Managed product success across a €45M ACV Fortune 500 portfolio, owning the relationship between enterprise customers and Product, Engineering, and Support.

- Reduced escalations 40% and board-level escalations 18% by analyzing ticket and escalation trends, identifying root causes, and addressing workflow blockers impacting adoption.
- Increased product adoption and value realization 10% by translating enterprise customer feedback into implementation priorities, product requirements, and feature activation plans.
- Owned engineering intake for enterprise quality escalations, working directly with customers to resolve issues, rebuild trust, and protect renewals.
- Led enterprise implementation and change-management efforts for new deployments, proactively resolving blockers to reduce go-lives from months to weeks and meet SLA timelines.

Pan Pacific Hotel Seattle, Seattle, WA
Director of Sales, Marketing & Events

September 2017 - October 2018

Led six direct reports across sales, marketing, and events, managing \$8M in rooms and F&B revenue responsibility.

- Exceeded annual revenue targets 11% and generated \$1M in incremental revenue through demand-based pricing and targeted segment strategy.
- Grew qualified sales pipeline 10% year-over-year through multi-channel lead generation and outreach tied to demand gaps.

Hyatt Regency Bellevue on Seattle's Eastside, Bellevue, WA
Associate Director of Sales

September 2013 - September 2017

Co-led commercial execution for a ten-person sales organization across \$16M-\$20M in annual revenue.

- Surpassed individual production targets by an annual average of 12%, managing \$1.5M+ in annual production across a two-person team.
- Secured a key technology account that contributed 25% of total hotel group revenue annually through targeted prospecting and long-cycle relationship development.
- Mentored six Sales Managers who exceeded production goals by an average of 8% over four years, strengthening team performance and leadership bench depth.

Earlier Experience: Senior Sales Manager, Hyatt Regency Morristown at Headquarters Plaza | Exceeded production goals by 27%, drove 15% annual group revenue growth, and maintained 95% customer retention.

PORTFOLIO WORK

Hotel Multi-Date Rate Scanner | Travel Tech Prototype

- Built a functional prototype that helps travelers compare live hotel rates across multiple properties and date combinations in a single decision-friendly view.
- Defined the product problem, user workflow, booking logic, and API requirements, then used Claude Code, SerpAPI, Lovable, GitHub, and Render to move from concept to live working prototype.

EDUCATION & CERTIFICATIONS

Professional Certificate, Software Product Management, University of Washington

Master of Tourism Administration (MTA), The George Washington University School of Business

Master of Public Administration (MPA), Northeastern University

Bachelor of Arts, Psychology, Boston University
